SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

Weather of Concern

- A strong cold front will continue across far northern California this morning and then gradually subside. However, another strong front will allow winds to increase again tonight into Monday.
- High surf is expected along the Northwest California coast starting this evening through Monday. Breaker heights will range from 21 to 26 feet.
- High Wind Warnings in effect through this afternoon for areas in Modoc County.
- High Wind Watch in effect from Monday morning through Monday evening for areas in Modoc County.

Active Weather Warnings, Watches and Advisories by County:

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

An approaching storm system will bring gusty south winds along with rain and mountain snow to Northwest California tonight. The weather pattern will remain wet and unsettled through next week.

Medford Weather:

A front moving through the area today will produce rain and snow in the forecast area. A series of storms is expected over the next several days as a very strong Central Pacific Jetstream dips into the forecast area.

Reno Weather:

A weak disturbance will provide light rain and snow north of Interstate 80 through early afternoon. Gusty winds are also expected today before diminishing through the afternoon. The storm track retreats into the Pacific Northwest by early next week with above average temperatures. Unsettled weather with colder temperatures returns by the latter half of next week.

San Francisco Weather:

Rain will spread across much of the San Francisco Bay Area this morning. Rainfall amounts will mostly be light. Dry and mild weather is forecast from late today through Tuesday night. The next Pacific weather system will likely bring heavier and more widespread rain to the region from Wednesday through Thursday night. Showers may linger into Friday. Another system may impact the region next weekend.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

A weak weather system today will be followed by much wetter and snowier storms Wednesday and Thursday and another next weekend.

Hanford Weather:

A storm moving north of our area today will bring increased clouds along with a few light showers possible across Merced and Mariposa Counties today. Dry and mild conditions are expected Monday through Wednesday then a cold storm system will move through the region on Thursday and Friday bringing precipitation and gusty winds.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Continued offshore flow and a building ridge aloft will support warm and dry conditions through mid-week. A trough of low pressure is expected to move southward along the west coast Thursday and support the possibility of rain and mountain snow Thursday, Friday and lingering to the north of Point Conception into Saturday. Cooler temperatures and increased cloudiness may last into the weekend.

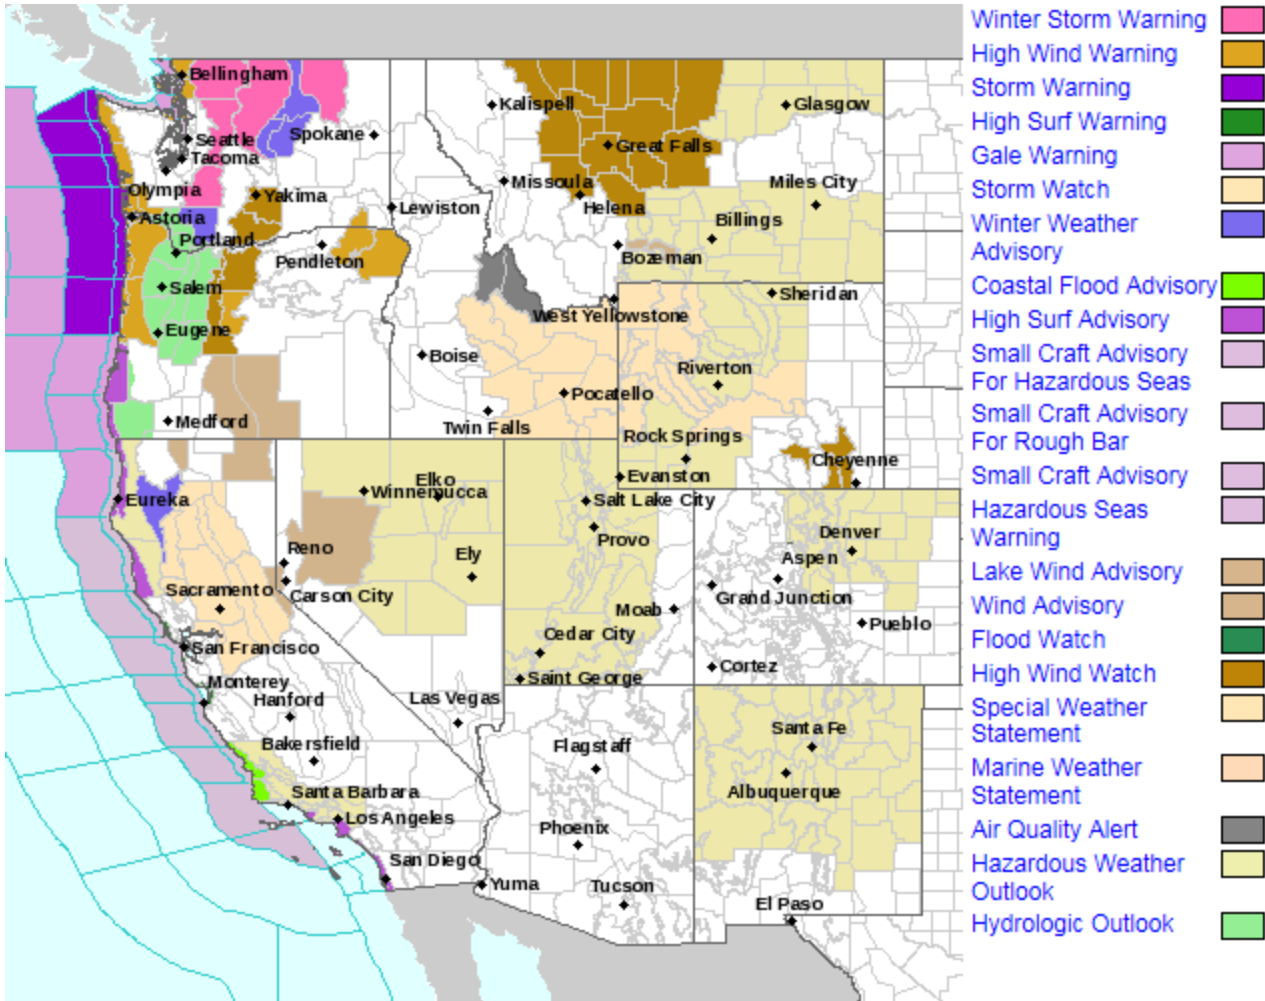

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Warm and dry weather is expected through the middle of next week, then cooler for late next week with slight chances of showers and strong gusty west winds becoming cool and drier Saturday.

Southeast California Weather:

Above normal temperatures will persist across the region through much of the week as high pressure remains in control of the weather.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.
